What Every leader Needs to Know About Cybersecurity

Globally: of all security breaches take place in higher education

500+ security breaches at 2018

320+ higher education institutions since 2018

- There are over 41,000 Cyberattacks on the Edu organizations everyday
 - Phishing
 - Ransomware
 - Keylogging

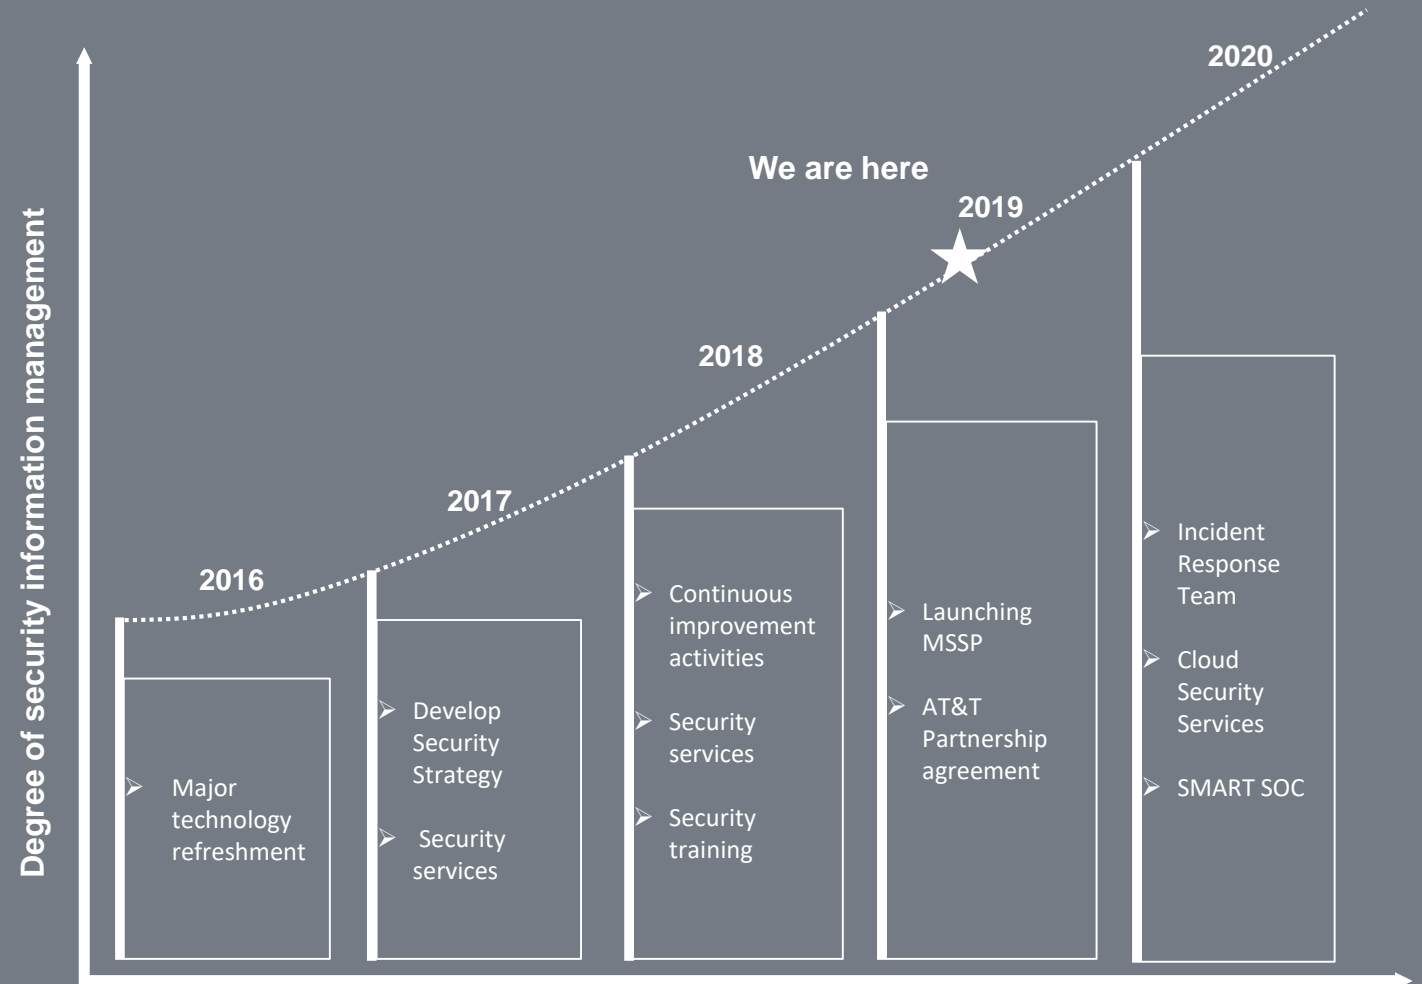

What Every leader Needs to Know About Cybersecurity

- It's a good time to be a cybersecurity expert — and a bad time to try to hire one
- Gartner Survey 4Q18: Cybersecurity Talent Shortage Is Now the Top Emerging Risk Facing Organizations
- 51% of organizations are not re-evaluating their information security as a result of high-visibility data breaches
- 54% of organizations they don't have the appropriate security operations center

Maturity Curve

MAEEN has begun to put into place capabilities to effectively manage Information Security Risk

We will Shape and Share the future

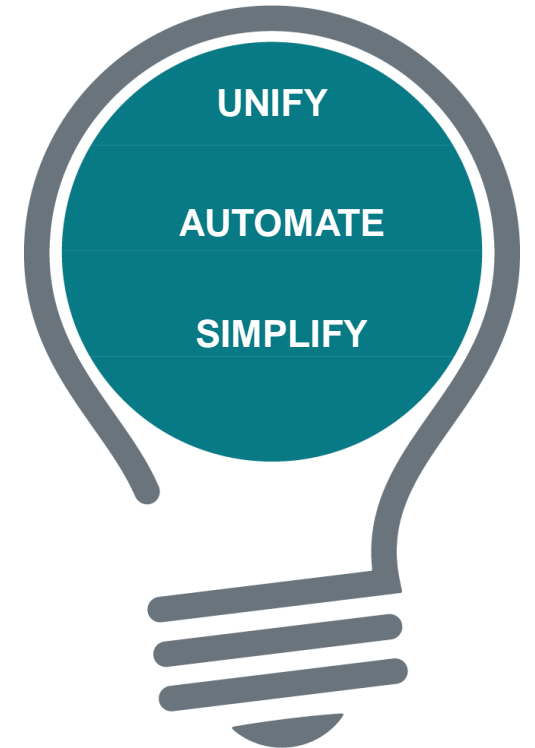

The Approach to Security Must Change

Today's Security Industry Challenges...

...Call for A Smarter Approach

- Stay up-to-date with global threats, breaches and vulnerability news and trends
- Reduce attack surface
- Update our security strategy
- Adapt processes and staff to new challenges
